Universidad de Valladolid

YMIS 09
February 15th-21st, 2009

Fifth Meeting for Young Mathematicians in Sedano "Grothendieck Duality, Valuations, Resolution of Singularities and Tropical Geometry"

Place: Sedano (Burgos, Spain)

Deadline for Registration: January 1st, 2009

Hosted by SINGACOM research group

Organizers: Eugenia Ellis, Fernando Hernando, Ann Lemahieu, Julio José Moyano Fernández, Diego Ruano

Scientific Coordination: Antonio Campillo, Félix Delgado, Santiago Encinas

Courses:

Ana Bravo (Universidad Autónoma de Madrid): Hypersurface singularities in positive characteristic and stratification of the singular locus

Dale Cutkosky (University of Missouri): Valuations

Ilia Itenberg (Université Louis Pasteur): Topics on tropical geometry

Joseph Lipman (Purdue University): Grothendieck duality

There is a free space to discuss your own work, anything arising from the courses or simply share ideas! You can prepare a poster or a talk.
