Mathematics for Computer Graphics 2009-AAU
Lecture 12, October 23rd

We have a longer repetition lecture today.

12th Lecture: Friday October 23rd, 8:15-12:00 **at room NJ14 4-117**

- 08:15-09:00 Lecture: Repetition from last recture. Quaternions.

- 09:00-11:000 Work in groups. Exercises: 109, 112, 111, 110, Opgave 6 from 30/08/06's exam, 108. I recommend you solve them in this order.

  If you solve all these exercises you may try to solve the ones you did not solve in the previous lectures.

  One may find the 30/08/06's exam through the course's web page (at "Matematik for Programmører 2006") or just at
  `http://www.math.auc.dk/~olav/undervisning/dat06/aug06.pdf`

- 11:00-12:00 Lecture: Linear interpolation and Hermite curves (pages 431-444).

Best,

Diego Ruano
