Mathematics for Computer Graphics 2009-AAU
Lecture 6, September 21st

6th Lecture: Monday September 21st, 12:30-16:15 at room A4-108.

- 12:30-13:00 Lecture: linear transformations, Gaussian elimination.

- 13:00-14:55 Work in groups. Exercises: 44, 46, 58, 60, 59, 57, 61, 63. I recommend you solve them in this order.

  If you solve these exercises you may try to solve the ones you did not solve in the previous lectures.

- 14:55-16:15 Lecture: Matrix inverse, determinant (pages 117-128).

Best,

Diego Ruano
